*Kvass*

**KVASS** ..... MUG \$3/PINT \$4 Takeaway Litre \$6  
Traditional Russian non-alcoholic drink with sweet & sour  
flavor brewed based on the fermentation of malt and dry  
rye bread

**Some of the health benefits of Kvass:**

- 1. Tonic and refreshing effect on hot days. The ability of kvass to perfectly quench the thirst on hot days is related to the sour taste that lactic acid gives to it. This is due to the so-called “acid thirst” phenomenon.
- 2. Boost the immune system due to Vitamin C
- 3. Kvass is considered to hold antiseptic properties and have the ability to fight infection, and for these reasons it is also sometimes drunk as a precursory measure before coming into contact with sick people.
- 4. Rich in nutrients — kvass contains a good deal of this immune-boosting, toxin-fighting antioxidant.
- 5. Promotes better sleep, helps in the fight against chronic fatigue, depression.
- 6. Kvass can help to normalise the work of the gastrointestinal system. Improves digestion and assimilation of stodge food.
- 7. Keep the heart and circulatory system healthy. Yeast fungi helps to remove cholesterol plaques, which increases the elasticity and strengths of good vessels.
- 8. Kvass benefits include the ability to provide body with healing probiotics. Probiotic foods enhance the immune system and improve the health of the intestinal tract.
